

The Joint Research Centre Geel is very proud to host the 15th ATOMIADE in June 2015 and I am particularly happy to welcome you to this part of Belgium.
The "Kempen" region is endowed with excellent sporting and tourist amenities and is also home to a number of important research establishments.

I am pleased to announce that we will have our very own "ATOMIADE VILLAGE" at the Sunparks Holiday Centre. This means we will have the exclusive use of the park for our participants for the entire duration of the games.

I hope you will all register in your numbers for this great event.

All we need is YOU !

Henry Koekenberg
President ASCERI
